

Looking for a Change?

At Rock Out Youth Foundation we seek to reconnect with the youth of this generation; to provide our youth with direction, when they are feeling lost. We must reconnect if we are tosurvive as a society; for a society is only as strong as the connections between the generations!

The strength of any society is based upon the strength of the ties between the generation gaps. We at Rock Out Youth Foundation seek to narroow and eventually eliminate the gaps that exist. In order for our current society to regain strength, we must re-establish healthy connections with our youth.

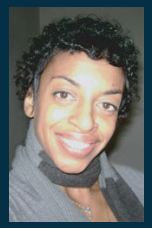

We can not afford to hesitate for another moment. Whether you older or younger, just look at your own life and count how many meaningful connections you have with people outside your own generation and you will see that our society must reconnect.

Primarily, our goal is to link up with the surrounding communities & schools. Safety at the ROY Foundation is first; we do not turn anyone away, but a background check is required before entry into the program. We then study one's history and place them in a program that best fits their needs.

Our Mission Statement

- To Reconnect with the youth of this generation
- To provide our youth with direction, when they feel lost
- To facilitate the maturation of out youth in a social context
- To link up with the surrounding communities & schools

"This youth foundation was first conceived after observing our youth descending into negative behavior. As a single mother, I was compelled to establish a refuge for the younger generation."
